

## **WE'RE HIRING!**

### **Job Description:**

As the Lead Plumber – Goderich Branch, with Jayden's Mechanical, you will become part of a team of stellar employees who are highly valued and skilled. We are a privately owned and operated business dedicated to performing quality work and providing outstanding service to our customers. As a member of our team, you will be responsible for managing all aspects of plumbing design and estimates for projects within your Branch's field. The Lead Plumber provides solutions to technical problems and is responsible for job planning, ordering, scheduling and quality production. This position is accountable for the processes of design, testing and continuous development of plumbing equipment, components and systems as assigned. This role will be great for anyone who wants to make the most of their experience and abilities and grow within a rapidly expanding company committed to hard work.

### **Responsibilities Include (but are not limited to):**

- Direct, coordinate and complete plumbing projects and ensuring compliance with specifications, codes, and work order requirements
- Ensuring that efficiency is maximized while repairing existing or installing new parts and systems
- Prepare cost estimates and equipment layouts
- Provide resource estimates and schedules for projects
- Provide expertise and guidance in the identification, analysis, and resolution of problems
- Possessing the ability to utilize and interpret architectural drawings and specifications
- Prepare specifications for purchase of materials and equipment
- Maintaining, repairing, installing, and retrofitting in the field and on the tools
- Ensuring safety is a priority on the job during all activities.
- Demonstrates the ability to operate and maintain a company issued vehicle in a respectful fashion
- Consistently performs very strong workmanship and neatness of job completions
- Adheres to Jayden's Mechanical policies and procedures

### **Qualifications Include:**

- Have at least 5 years experience in the Plumbing field and Team Management
- Highly organized and competent individual ready for a fast-paced work environment
- Licensed Journeyman Plumber
- Commercial / Agricultural plumbing experience is a strong asset
- Demonstrated knowledge of Canadian plumbing code
- Strong work ethic and a positive attitude
- Team player with proven ability to work independently and cohesively towards job completion
- Excellent communication skills and ability to professionally represent the organization with all stakeholders
- Accountable problem solver with the ability to oversee projects
- Effective leadership skills required

### **Compensation Includes:**

- Highly competitive salary package based on experience with an opportunity to play a key role in the future growth of our organization
- We are looking for career minded individuals who will grow with our company
- Opportunity to acquire a company vehicle
